

REPORT OF THE PLUMBING AND GAS INSPECTOR

This Department has recorded 214 plumbing permits and 184 gas permits during the 2007 calendar year.

Plumbing and Gas permits continue to come in at a steady pace. Once again, this department has had a very busy year. All inspections were made as requested in a timely manner with very few problems.

I would like to thank my two assistant inspectors, Dale Gardiner and Kenny Kristiansen, for their continued support to me and service to the residents of Abington. I also thank the building inspector and building department staff for their continued support.

Respectfully Submitted

Michael C. Lydon
Plumbing and Gas Inspector
