

**REPORT OF THE  
PLUMBING AND GAS INSPECTOR**

This department has recorded 225 plumbing permits and 125 gas permits during the 2008 calendar year.

Plumbing and gas permits continue to come in at a steady pace. Once again this department had a very busy year. All inspections were made as requested in a timely manner with very few problems.

I would like to thank my assistant inspector, Kenny Kristiansen, for his continued support to me and service to the residents of Abington. I also thank the building inspector and building department staff for their continued support.

Respectfully submitted,

Michael C. Lydon  
Plumbing and Gas Inspector
